Bloodshed is feared at the polls at Denver on Tuesday owing to an order of a Republican Judge which gave election officers plenary power. The order grew out of a charge that Democratic county officials had placed 20,000 fraudulent names on the registration lists, whereas both sides admit gross frauds. The citizens have appointed a Vigilance Committee and the Supreme Court may pass on the order tomorrow.

A merger of the stockyards interests of the country is now reported to be under consideration, and only awaits the perfection of the packing combine. The capital would be about \$100,000,000, and it is claimed that the undertaking would not be difficult, as the members of the packing combine own about all the stockyards except those in Chicago, and in these the Chicago people are heavily interested.

Leaders of both parties gathered last night in Greater New York, where speech-making and torchlight processions under the auspices of both Democrats and Republicans made it the reddest night of the campaign. On account of a slight illness John C. Carlisle was unable to preside over the meeting in the Thirtieth Congressional district.

Former President Cleveland spoke to Democrats at Morrisdown, N. J. His speech was devoted to a review of the tariff and its relations to trusts. Broce Heat will probably be pronounced out of danger in a few days. Discrepancy in the reports as to his condition indicates, it is claimed, a desire on the part of Heat's friends to keep Dr. Duncan in jail as long as possible.

### VESSIE.

Farmers are busy gathering corn and preparing for "Old Grim." Rev. and Mrs. C. T. Miller visited their son Walter Miller, of Little East Fork Sunday.

Best Liniment on Earth. I. M. Mellany, Greenville, Texas, writes, Nov. 2, 1930: "I had rheumatism last winter, was down in bed six weeks; tried everything but got no relief, till a friend gave me a bottle of Ballard's Snow Liniment. I used it, and got two more bottles. It cured me and I haven't seen rheumatism since. I can recommend Snow Liniment to be the best liniment on earth for rheumatism, neuralgia, sciatica, or neuritis. For rheumatic sciatica or neuralgia, rub in Ballard's Snow Liniment, you will not suffer long, but will be gratified with a speedy and effective cure. 50c bottle and \$1 at A. M. Hughes drug store."

Some idea of the wealth of Henry Clay Frick, Andrew Carnegie's former partner, may be obtained when it is stated that in the last two years he has purchased real estate in the city, the aggregate value of which is \$10,502,000. This includes the Behlen property, at the Point, which he bought on Saturday for two million dollars. It also includes St. Paul's Catholic Cathedral, for which he gave \$1,225,000, and the new Frick building, erected at a cost of \$4,500,000.

### A Dangerous Month.

This is the month of coughs, colds and acute catarrh. Do you catch cold easily? Find yourself hoarse, with a tickling in your throat and an annoying cough at night? Then, you should always have handy, a bottle of Ballard's Horehound Syrup. J. A. Zimmerman, 334 West 5th Street, Salt Lake City, writes: "No one has Ballard's Horehound Syrup for coughs and colds. It gives immediate relief. We know it's the best remedy for these troubles. I write this to induce others to try this pleasant and efficient remedy. 50c bottle and \$1.00 at A. M. Hughes drug store."

London, Oct. 31.—Anton Lang's marriage to a boxman Oberammergau dancel the other day has set the folk of the famous little Bavarian village to asking each other anxiously whom they will find to play the chief part in their next Passion play. Luckily they have plenty of time in which to seek a successor to the mild-featured peasant who, for so many years, has appeared as the Saviour, for the next Passion play is not to be given until 1936.

In getting married Lang renounced all claim to the chief part in the sacred drama, and probably it is just as well for if he lives he will be forty when the time of the next performance comes round. Evidently, too, Lang has decided, as bolts in gay Bonedick he is frivolous after this. "Whoa!" he is surprising his friends by assailing them with pleasure cards with joking messages written on them.

Lang's wedding was a great event in Oberammergau. The villagers say that such a marriage feast was never seen in the town. The name of the wedding presents, many of which came from distant countries, was legion. The English admirers of the peasant actor, who tried in vain to induce him to visit London several years ago, gave a dinner set of Molsen porcelain, several standard drawing-room lamps, engravings, paintings and Coronation souvenirs.

Men Wanted at Huhnderslow and Round Bottom, W. Va. BAYAGE & HOUTER, Contractors.

### FALLSBURG.

Nothing unusual or of much importance has occurred here except that Edmund Hies married Viola Browning and was -renowned, until near midnight with bells and horns. He is the main clerk in the store here and will not have time to take much of a wedding tour at present.

Ernest Monor and wife have been visiting relatives here for the last few days.

I suppose some of the school teachers will furnish an account of their association that was held here on last Saturday, suffice to say C. H. Chaffin failed to be on hand to tell the trials of a school teacher.

There was quite a number of folks in Louisa to hear the Republican speakers and some of them are puzzled to know the Castner got in and have that picture taken.

### A Startling Surprise

Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith of Tilden, Ind., that for ten years he suffered such tortures from rheumatism as few could endure and live. But a wonderful change followed his taking electric baths. "Two baths wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the system, purify the blood and cure rheumatism, neuralgia, nervousness, improve digestion and give perfect health. Try them. Only 50c at A. M. Hughes drug store.

"Speaking of James J. Hill," said a St. Paul man at the Holland House the other evening, "I can tell you a story of him."

"It was away back in the eighties when the late lamented Harry Ives was Mr. Hill's private secretary and Mr. Hill was giving away pigs of porcupine to the farmers of the northwest in order to encourage stock raising along the line of the Great Northern road and thus build up its traffic. The state fair was in progress in St. Paul when one September morning Ives opened Mr. Hill's mail and found a letter from a farmer, which read as follows:

"Dear Sir—I went to St. Paul and to the fair, as you told me, I looked for you at your office and also at the fair grounds. I found plenty of hogs of your species, but could not find you anywhere."

### Asleep Amid Flames.

Preaking let a blazing home, some dreamer lately dragged the sleeping inmates from death. Fanned security, and death near. It's that way when you neglect Coughs and Colds. Don't do it. Dr. King's New Discovery for Coughs, Colds, Whooping Cough, Sore Throat, Asthma, gives perfect protection against all throat, chest and lung troubles. Keep it near and avoid influenza, death and doctor bills. A teaspoonful stops a late cough and persistent use the most stubborn, thickest and most lasting. It's guaranteed to satisfy by A. M. Hughes. Trial bottles free. Reg. sizes 50c and \$1.

### DEMOCRATIC CONVENTION.

At a meeting of the Democratic Committee for the Twentieth Judicial District, held at Catlettsburg, Ky., on September 16, 1932, it was ordered that a convention be held at the Court house in each of the counties composing said Judicial District on November 15, 1932, at 1 o'clock p. m., for the purpose of appointing delegates to attend a convention to be held at Louisa, Ky., on November 20, 1932, at 11 o'clock a. m., to nominate Democratic candidates to vote for at the November election 1932 for the offices of Circuit Judge and Commonwealth's Attorney of said district. The basis of representation will be one vote for each 200 east for W. J. Bryan in 1900.

ROBERT DIXON, Chairman. J. P. HANNAH, Secretary.

Shortland, Hargreaves and Pitman systems, Typewriting on all the leading machines, book-keeping and business practice, and the correlated commercial branches taught in this department.

Boarding pupils will hereafter be received by the Sisters. Terms very moderate. Apply to Rev. N. N. Gosselin, Ashland, Ky.

It is an utter impossibility to catch cold if the surfaces of the body are kept at an even temperature. The trouble may be from without or it may be from within; it is, by not being either properly or sufficiently clothed; by not having perfect circulation, or by not eating such food as is needed to furnish the required heat of the body. The chilliness you experience in the winter arises from one of two causes: first, lack of carbonaceous food; second, poor circulation, possibly due to lack of exercise.—Ex.

Entered at the postoffice at Louisville, Ky., as second-class matter.

FRIDAY, NOV. 7, 1902.

The total vote in Ohio appears at this time to be about 800,000.

The Big Sandy river is entitled to congratulations. If she isn't well represented in Congress we should like to see a river that is.

Male Johnson, who was the nominee of the Prohibition party for the Vice Presidency in 1896, was killed yesterday at Bogota, Ill., by Harry Harris, from whom he was trying to collect an account. Harris was arrested, and committed suicide in jail.

By a premature explosion of fireworks at Madison Square Garden to celebrate the announcement of New York election returns Tuesday night ten persons are believed to have been killed and a number seriously injured. A panic ensued and 500 extra policemen were ordered on duty to look after the dead and dying.

A widow, fifty years of age, was arrested in Denver Tuesday on the charge of repeating. She was in the act of casting her third ballot. It is said, when she was apprehended, here is an instance for the consideration of those who think woman suffrage would purify the ballot. There would soon be the greater question of how we would purify the women.

## MANILA.

Johnson County is on a boom. Many of our people are working on the new railroad and scattering the money to the remotest parts of the country. Even the hope of a railroad infuses new life and vigor into our people.

We have the promise of some new oil wells in this community in the near future. The oil men say that their machinery is on its way, and have engaged teams to haul it from White House to Colvin Branch. They are to open up a well that was drilled here several years ago. They will drill other wells after that.

We have a new store at Manila. The firm is Grilith and Gullett. They have recently moved from Oil Springs and will build up a good trade. They were timely in their action, coming as they did, when business of all kinds is booming.

We have a daily mail on this route new from Oil Springs to Flat Gap by way of St. Maat, Manila, Sampson and Kerz. Heretofore we have only had three mails a week. All this brings us in a touch with the outside world.

The crying need is now for better roads and mere bridges. We are far behind in that respect. Recent developments in the way of building railroads, opening new mines, and the prospect of having to haul off machinery to different parts of the country make sharp demands on our county officials, and we trust they will be equal to the occasion. The present demand was unforeseen just two short years ago. Public sentiment has changed.

ed as the times have changed, and for us to lag behind now, would be a crime. Give us better roads.

## COW.

We have had two removals from this place recently. J. H. Herald and family, and Marion Sherman and family.

We are expecting a wedding on Jarrett's Branch soon.

Tom Williamson and Dick Harris, our plug horse swappers, are trading.

James Blair, Sam Jarrell, Hiram Taylor, John Forrel, and J. P. Harris, all prominent men of this place, are buying mineral this week.

Mrs. Jane Blair visited Mrs. Emma Sanders Sunday.

Wm. Vest, of Johns creek, was here Sunday.

Napoleon Noble is engaged in the sorghum business.

Morgan Jarrell and Keen Burchett have raised a fine crop of turnips.

## ODDS.

L. H. Wells has purchased a saw mill.

J. K. Hawkins of Tenn., is busily engaged delivering fruit trees.

# EVERYTHING IN KENTUCKY!

Democrats Win all but the Hopeless Eleventh Congressional District.

Kehoe's Majority is over Two Thousand.

FOUR DEMOCRATIC APPELLATE JUDGES.

The Kentucky Democrats scored a splendid victory in Tuesday's election. The four Democratic nominees for Appellate Judge, Nunn, Suttle, Barker and Paynter, were elected by handsome majorities, and the Democrats elected ten of the eleven Congressmen and reduced the majority of Representative Herelng in the Eleventh district. The results in the so-called doubtful districts were surprising to Democrats and Republicans alike, Keho winning in the Third by about 1,000, and Kehoe in the Ninth by over 2,000. In the Second appellate district, which was considered close, Judge Settle claims his majority will not fall below 1,800. Judge Paynter has scored a record-breaking majority in the Sixth appellate district, 250 precincts out of 289, with the vote of Lewis county estimated, giving him a majority of 3,880. In Louisville, Barker and Sherley show up with large majorities, and in the normally Democratic districts the majorities exceed those of previous years in every instance where there was anything like a fight by the Republican candidates.

In New York the greatest fight of the year was made. Coler, Democratic candidate for Governor, carried New York City by 123,000, a remarkable majority. But O'Neil also surprised everybody by his heavy vote in the country districts and he is probably elected by a small majority, although this is not yet conceded by the Democrats.

## VOTE OF LAWRENCE.

Following is the result in this county:

Precinct.	Kehoe.	Caster.
Lyon	103	58
East Fork	72	57
Sweetnam	12	118
Georges Creek	39	183
Upper Louisa	117	100
Lower Louisa	182	113
Peach Orchard	70	68
Falls of Blaine	154	86
Deer Creek	126	99
Pat.	130	53
Twin Branch	127	55
Cherokee	35	82
Blaine	16	154
Rockcastle	11	79
Hobbs	53	111
Little Blaine	121	113
Dry Fork	119	51
	1769	1649

Two years ago Lawrence gave Pugh a majority of 96. The vote was about 700 short to the county, which is not unusual in an "off year."

## LATEST RETURNS.

Latest returns indicate that O'Neil has carried New York State for Governor by 19,000 plurality. Coler, however, does not concede the election of his Republican opponent, and intimates that fraud has been committed in counting the vote out side of Greater New York. Indiana is Republican by something over 25,000. There is no change in the political complexion of the congressional delegation in that State. It seems certain that a Mormon apostle will be elected United States senator by the Republican Legislature of Utah. Former Gov. Holles was defeated for Congress in Speaker Henderson's district in Iowa. The Republican Congressman was elected in Virginia.

Chairman Briggs still claims the election of the Democratic House by twelve majority. The Republicans claim the House by at least thirty.

## JAMES N. KEHOE.

The victory of Congressman Kehoe is more complete than was expected by either side. His home county of Mason gave him 1070 majority, which is fully twice the normal majority. Castner carried Boyd by only 226. Kehoe gained in every county, and Castner lost in all of them, over the vote of two years ago. The majority is between 2,000 and 2,500.

## HOPKINS.

In the Tenth district F. A. Hopkins had a walk-over, and won by a plurality of 3,000 to 4,000. He carried Floyd 755, Pike 191, Knott 909, Morgan 735. Johnson went 488 against him, Martin 282, and Magoffin 150.

## IN WEST VIRGINIA.

In our neighboring counties across in West Virginia the Democrats have fared well in county races, but the Republicans elected all their Congressmen.

J. A. Hughes' majority is about 2,500. He carried Wayne county by 50 and Cabell by 350, while both of these counties elected full Democratic county tickets.

In Mingo county Leo Drake, a Republican and native of Louisa, was elected a member of the county court. (One other county office is

Natives do not glaze coffee with a cheap and impure coating. They have too high a regard for health as well as for the naturally delicious flavor of their popular berry. The very American roasters who glaze their package coffees do not dare to touch or glaze their high priced Mochas and Javas. Why?

## OUR NEIGHBORS.

The pension of John J. Auxler, East Point, has been increased to \$21 per month.

Peter B. McCoy has been appointed postmaster at Milo, Martin county, vice M. Fannin, resigned.

"Uncle" Quillen Bentley, an aged and wealthy citizen of Letcher county, was kicked to death by a mule.

John Wyatt, the 16-year old boy who was shot in the back at Whitehouse two weeks ago by Arnold Wahle, died Sunday night.

Oliver Hill, Nov. 3.—The residence of Mr. John Tackett burned here to night. A child narrowly escaped suffocation. The loss is \$1,500, covered by insurance.

The Greasy Creek Cannel Coal and Tramway Co. is building a new coal tippie just below the mouth of Greasy, to take the place of their old tippie that was abandoned on account of the extension of the Chesapeake and Ohio railroad.

C. P. Grogan, formerly agent at the C. & O. office at Russell, has accepted a position as night yardmaster at the Russell yards. E. L. Smith, of Huntington, is the new day yardmaster, taking the place of J. H. Myers, who resigned and went to Mississippi.

Inez, Ky., Oct. 31.—Mossant Spradlin was lodged in jail here today accused of killing his four-year old boy. The case was called in court and the trial was continued until the third day of the February term, 1903. Spradlin is in jail in default of \$5,000 bond.

The price of land along the Guyandotte river has gone up recently by leaps and bounds, and there is a great demand for coal land where over it can be had and large sums are being paid for the territory that is still open. Much of the land was leased many years ago for a merely nominal consideration.

James Pennington, lige slasher, Dave Slasher and Clint Slasher, who were arrested a few weeks ago in Magoffin county, charged with counterfeiting, pleaded guilty in the United States court at Covington, a few days since and were given sentences in the Federal prison for terms ranging from two to five years.—Paintsville Leader.

Paintsville is to have another wholesale grocery establishment. Work has commenced on a mammoth building on Cy M. Preston's lot at the mouth of Paint creek. It is reported that Cy M. Preston, of Catlettsburg, L. N. Davis, of Ashland, and Isaac Ward of this place are the chief promoters of the new enterprise.—Paintsville Leader.

Work on the two locks in Big Sandy river below this place is going along steadily, with good prospects of both being finished this season. The Catlettsburg locks has had no delay on account of recent and is therefore nearer completion than the one at Kavanagh. Hot with favorable weather until December 1-4, No. 2 will also be completed.

Chicago has lost and Cincinnati has gained an important branch of business. The Sandy River Coal Company, whose property is in Kentucky and office in Chicago, is about to establish its headquarters in this city. W. H. Gault, formerly with the Murren Company, and a number of prominent businessmen will have control of the business. The company mines large quantities of canal coal, which is shipped to the Northwest, the Eastern seaboard cities, to New England and to Europe via the C. & O. Road and Newport News.—Cincinnati Enquirer.

Jackson, Ky.—A company organized under the laws of South Dakota as the Kentucky Diamond Mining and Development Company with a capitalization of \$5,000,000, has filed articles of incorporation with the County Clerk of Elliott county and begun operations among the celebrated "dykes" in the eastern part of Elliott county. A number of stones have already been discovered which have been pronounced diamonds by expert lapidaries of Baltimore. It is also reported that both red and green garnets have been discovered.

Inez, Ky., Nov. 2.—The missing daughter of Pleasant Spradlin, who is held for the murder of his four-year-old son, turned up to-day, barefooted and ragged, after her escape from her father in the mountains.

She was immediately taken before the grand jury, and testified how her father killed the boy, threatened her life and that of her mother. She testified that he would have trained them herebefore but for the interference of neighbors.

Judge Hunsley has the jail as strongly guarded that there is no longer any danger of lynching. Spradlin will be given a speedy trial.

The report has gained a circum-

tion that the Chesapeake & Ohio railroad is at loggerheads with the town of Pikeville. It is said that Pikeville demands \$70,000 for the right-of-way through its streets, and that the railroad, rather than pay that price, will make a tunnel near the mouth of Cedar creek, one and a half miles below Pikeville.

The railroad officials say that by making the tunnel they will save about two miles in road building and that the expense will not be so great. The change in the route has been surveyed and a force of men are at work on the tunnel. Just whether this is a bluff on the part of the railroad officials can not now be determined.

A special from Salyersville, Magoffin county, says:

"On Punched creek, about nine miles above here, Isaac Risner was stabbed in a fight, and is not expected to live. Lundy Risner was shot in the arm just above the wrist, breaking both bones. Nelson Salyer was dangerously wounded being struck in the head with a large stone. The fight started between one of Isaac Risner's sons and Green Howard. Young Risner ran to his father's house about one hundred yards away, and got his pistol and, in company with his father and brother, who also had revolvers, returned and began firing on Howard and his brother, Nelson Salyer and Lundy Risner. It is not known who cut Risner."

At Salyersville a few days ago Ed Keeton, colored, was found guilty by a jury of manslaughter. The jury fixed his sentence in confinement in the penitentiary for 21 years. The verdict was a great surprise to the people, as a more deliberate murder was never committed in that county. It is said, four of the jurors had lost brothers by murder and it was thought that the death sentence would be inflicted. Commonwealth's Attorney Byrd said: "There is no danger in killing a man in Magoffin. The jury will not hang."

The following is from the "Talk of the Town" column of the Cincinnati Enquirer. As to the truth of it we do not pretend to say:

"The C. & O. D. Railroad has been negotiating for the charter bridge rights between Ironton, O., and Ashland, Ky., and the deal is practically closed with J. C. Mayo and others. This will put the C. & O. D. into the Kentucky side, whence it is said it will at once start a line for the rich coal, timber and iron resources of Eastern Kentucky. It will first extend its line from Denn or thereabouts, to Ashland. There is a race for the section of the country for which the C. & O. D. is heading among several roads. The C. & O. D. has now 3,000 men at work on its line, and will spend \$2,500,000. The Detroit & Southern, which got in ahead of the C. & O. D. in the purchase of the Iron Road, will also cross the river and push for the same fields. The Seaboard Air Line is racing for the same region, and says it will go into Ashland. John C. Mayo and his associates in Chicago, Pennsylvania, Cincinnati and Minnesota have 500,000 acres of lands in several of the counties, the richest in the resources the railroads are after. One of the men in the midst of the fight for the fields said last night that Ashland and Ironton, immediately opposite each other on the Ohio, is now the most important steel and iron point in the United States not held by the Steel Trust."

Huntington, W. Va., Nov. 4.—A man giving his name as Walter Woodcole and pretending to be a cripple with both arms in plaster of paris in McDowell County, after receiving aid, became intoxicated and was found to be a fraud. He was taken from prison, tied to a telephone pole and lashed with a rawhide. He is under the care of physicians at a farmer's house, with but little hopes of recovery.

The Lincoln Coal Company has purchased of J. L. Caldwell, of Huntington, several hundred acres of coal lands near the mouth of Six Mile on the Guyandotte Valley railway. The deal was consummated through J. W. Porry, the attorney for the company, and who is also stockholder. The new pur-

Last Saturday night Henry Jenkins, of this place, sustained a painful and what might have been a very serious accident, near Hampton. He was enroute to Cincinnati with a carload of cattle. At Hampton one of the cows got her leg through the side of the car and as Mr. Jenkins was walking along on his way to the animal's relief he fell into a hole filled with water. He went in up to his neck and might have drowned but for the assistance of some broken men who helped him out. His lip was severely cut, and he was generally pretty badly broken up.

It is reported that there are some people here who favor doing away with the street lights. Instead of heeding such a sentiment, there should be more lights put up. We can not afford to take any backward steps. It is time we were waking up and making improvements in various ways. The town can never amount to much until we do so. Of course the lights should be secured as cheaply as possible. It is said there is a trust in control of the street lamp posts and the price is too high as the result of this condition. The City Council has appointed a committee to investigate the cost. If they can secure the service cheaper it will be a good piece of work. But if this is found to be impossible, some arrangement should be made for lights anyway. A few of our citizens have lights hung out in front of their places, led from their own meters at very slight expense. If many others would do this the town would be nicely lighted.

### Frank Damron Killed.

Frank Damron, of this place, was shot and instantly killed in Wyomling county, W. Va., last Sunday evening. Hud Collins, of Johnson county, committed the murder. The killing occurred at the timber camp of Garred & Smith, on Huff's creek.

The body was brought here Wednesday and buried under the auspices of the Odd Fellows lodge, of which the deceased was a member. Rev. John Chapp, of the M. E. Church, conducted the services from the residence, and the interment took place in Pine Hill cemetery.

Mr. Damron was about 41 years old and leaves a wife and one son, Wayne, who is a brakeman on the C. & O. railroad.

The killing is said to have been the result of former trouble, which was renewed on this occasion by a fight between Collins and a youth employed at the camp. Damron interfered to stop the fight. This started a quarrel between the two men, but they were separated and Damron agreed to drop the matter. A few minutes later he passed through the room where Collins was, and was shot just behind the ear as he passed out through the door. Collins left the place immediately and has not been arrested.

The girl, who was ten years old, had just gotten up, and went to the fire. In some manner the flames caught her thin dress, and before help reached her almost her entire body was burned. Her mother was visiting in Magoffin county when the accident occurred and did not reach home before her daughter died.

### ESSAY ON MAN.

A man's life is full of crosses and temptations. He comes into this world without his consent goes out against his will and the trip between the two is exceedingly rocky. The rules of centarities is one of the important features of the trip. When he is little the big girls kiss him. If he raises a large family he is a clump, but if he raises a small check he is a thief and a fraud and shunned like a Chinaman with the seven year itch. If he is poor he is a bad manager, if he's rich he is a dissembler; if he's in politics, it's for pie, if he's out of politics, you can't tell where to place him and he's no good for his country; if he don't give to charity he's a stingy cuss and lives only for himself; if he does give, it is for show; if he does young there was a great future ahead of him, if he lives to old age he has missed his calling. He is introduced to this world by a doctor and to the next one by the same process. The road is rocky but man loves to travel it.—Ex.

A woman who has an absent minded husband who will bear watching was startled a few weeks ago on her way down the church aisle to see that the good man, who had preceded her, was still wearing his hat. She transmitted a signal to him to remove the objectionable article, when she was still further startled by seeing him remove his teeth instead.

Informal callers should be most careful to avoid the hours for meals.

To drop an unwelcome acquaintance one merely omits sending cards.

Do not apologize too much for not having called before. Your neglect to do so has probably not been observed.

Never impose yourself upon your friends unless you are feeling well and are reasonably sure of making yourself agreeable.

Do not offer to your hostess the slight of a hurried call, nor be absent-minded, nor constantly consulting your watch.

Rise to take leave while you are the speaker—not when the conversation has languished, lest you appear to go because you are bored.

OBITUARY.

Mrs. Emma Fennin Jordan was born February 28, 1872, and departed this life October 14, 1902. She was ill only a few hours until death came and she entered the glory land where sickness comes no more. Emma was of a cheerful disposition and loved by all who knew her. She has left a husband, mother, sisters, brothers and a little daughter only a few hours old to mourn their loss.

She bore the suffering with christian fortitude until God said "you have suffered enough, come up higher" and her spirit leaped to the land of light and glory where a father who had preceded her many years, was waiting to clasp her in his arms. Weep not dear ones for Emma is at rest.

A gentleman from Western Kentucky gives the following remedy for hog cholera, by the use of which he claims to be able to ward off and arrest the disease:

Black and heavy, powdered, 1 lb. pulverized sulphur, 1 lb. Saltpeter, pulverized, 1 lb. Mix the above ingredients with bran in milk-warm water and feed it to the hogs in the morning early, and a like quantity at night. This is for fifty hogs and the medicine can be increased or decreased according to the number of hogs to be fed. As a preventive it should be given once or twice a month. If given to cure it should be given once or twice a day for a week or ten days.

LUCAS MOORE, Commissioner.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. Little children urinate too often, if the urine smells the flesh or if when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a lack of most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonials received from sufferers cured. In writing Dr. Kilmer & Co., Dime Building, N. Y., be sure and mention this paper.
